

MORE FROM WOOD.

Egger Protect
Dual sided T&G
structural flooring
board.

Part of the EGGER
ADVANCED
Structural Flooring System

Product Description

EGGER Protect is made from EGGER P5 flooring grade chipboard with a durable, anti-slip, weather resistant surface layer. This surface layer is applied to both the top and underside of the board, resulting in a product that offers protection from moisture penetration, not just during construction but for the life of the floor. EGGER Protect can be fitted in light rain conditions and left exposed, once fully fitted, for up to **60 days**, thereby minimising weather related stoppages and enabling faster completions.

- Once fully fitted can be left exposed for up to 60 days.
- Unique anti-slip surface, even in wet conditions.
- Can be installed in light rain conditions resulting in fewer stoppages on site.
- Fully sealed surface protects against water and moisture ingress on both sides.
- Low slip properties can contribute to site safety.
- Ideal for use with underfloor heating.
- The only board we recommend tiling directly onto.
- No joint sealing tape required.
- CE & FSC® certified.

| Product Information | |
|---------------------|---------------|
| Size | 2400 x 600 mm |
| Weight | 1.5 tonnes |
| Board thickness | 18 mm, 22 mm |
| Boards per pack | 80, 64 |
